

F-Line Flat Rainwater Harvesting Tank

The F-Line Flat Rainwater Harvesting Tank is designed for all ground conditions. The shape makes it easily transportable. The F-Line strikes a balance between capacity & ease of installation.

Features include:- 4 tank sizes 1500 to 7500 litres

- No concrete required for base or surround
- Minimum installation depth, less total excavation
- Sump basin maximises tank capacity
- Walkable and car driveable
